

## PHILIPPINE WAR IS NEARLY OVER

Prospects for Pacification of  
the Islands Are Said to  
Be Excellent.

### STERN POLICY BRINGS RESULT.

Native Constabulary Does Splendid  
Work in the Border Provinces—Gen.  
Chaffee Expects to Subdue Insurrec-  
tion by March 1.

Manila, Jan. 31.—The general out-  
look for pacification in the archipelago,  
everywhere outside of the island of Sa-  
mar, has never been more favorable  
since the original outbreak of the Fili-  
pino insurrection than at the present  
time. The insurgents have been broken  
up into small bands and are every-  
where fleeing for shelter. They surren-  
der daily, are captured or are killed.  
The policy of reconcentration and the  
stern measure of closing the ports to  
commerce have accomplished every-  
thing expected of them. General Chaf-  
fee still hopes that by the end of Feb-  
ruary the island of Samar alone will  
remain not pacified.

Those provinces bordering on the  
provinces of Batangas and Laguna,  
in southern Luzon, have been patrolled  
by the native constabulary, who have  
done excellent work and who have re-  
ceived the commendation of Gen. J.  
Franklin Bell, commanding in those  
provinces.

The members of the United States  
Philippine commission are proud of  
this constabulary, which was organized  
following their suggestion, and the  
greatest care is exercised in the selection  
of officers for the force. During  
the last month eighty-two military  
posts have been handed over to the  
native constabulary.

General Chaffee has taken effective  
steps to make sure that there will be  
no friction between the military and  
civil authorities. The most positive  
orders have been issued to all military  
commanders to co-operate in every  
way with the civil authorities, without  
relaxing in severity when they have  
occasion to deal with active insurgents.

### TERMINAL L. T. PHILIPPINES.

Ten American Marines Believed to Be  
Dead on Samar Isle.

Washington, Jan. 31.—Secretary  
Long yesterday received the following  
cablegram from Rear Admiral Rodgers  
at Cavite concerning the march of the  
marines across Samar:

"Details Waller's expedition across  
Samar not yet received. Much credit  
is due Shoemaker for services rendered  
in connection with rescue de-  
tachment at Lanang. Marines in  
Samar will be relieved in about ten  
days."

The second dispatch reads:

"Following casualties: Captain Por-  
ter's command attempting march La-  
nang to Dosey, Samar; Lieutenant A.  
S. Williams, slightly wounded in chest  
and suffering from eczema; Corporal  
W. Slattery, Privates J. McBay, E.  
Witzell, J. W. Hackler, W. D. Smith,  
R. Desmond, J. Egan, T. J. Correy,  
condition serious from weeping eczema.  
Privates P. J. O'Connell, T. San-  
jule, G. N. Foster, T. Brett, J. Woods,  
F. F. Brown, T. Murray, M. Bassett,  
L. A. Bailey and J. Barone, missing,  
hope abandoned."

Lieutenant William R. Shoemaker,  
who is commended in Admiral Rodgers'  
first dispatch, commands the gunboat  
Arayat, and has figured with distinction  
in a number of engagements in the  
islands.

Busy Day for Admiral Schley.

Louisville, Jan. 31.—Admiral Schley,  
as the guest of the Louisville Knights  
Templars, had little opportunity to rest  
Thursday. From 10 o'clock in the  
morning, when he visited the Girls'  
High school, until he left the Templar  
ball at the Galt house at midnight, ev-  
ery moment of his time was occupied.  
The greater portion of the day was  
spent among children, and the admiral  
shook hands with about 1,000 boys and  
girls, who expressed their pleasure by  
cheering their visitor and presenting  
him with flowers.

The Murphy League meeting will  
be held at the Y. M. C. A. building  
on Sunday afternoon. There will be  
no regular speaker but anyone de-  
siring to will be given an opportuni-  
ty.

## THE WHITEHEAD PETITIONS

The Whitehead petitions, which have been circulated throughout the state, are returnable Monday, and at an early date will be presented to the Senator. The generous response accorded indicates that popular sentiment has centered upon a candidate to lead the conservative forces of the republican party in the campaign, and while Senator Whitehead is honored, the people will also be honored should he accept the call.

The methods employed to oppose him in his home county are characteristic of the opposition, and the edict has already been issued from Madison that Rock county is the battle ground.

The home constituency possess both intelligence and loyalty and is not slow to recognize the fact that principles of vital import are at stake. Rock county will be found in the conservative column, because she believes in that kind of republicanism, and she also appreciates the honor conferred on one of her citizens.

## AN OPEN QUESTION.

It may not be popular to criticize the state university, or anything connected with it, because the institution is an honor to the state, and a great deal of sentiment attaches, but the campaign that has opened so early promises to be educational in many features, and largely devoted to the discussion of financial problems.

The one-mill tax has already been freely aired, and generously criticized, and other sources of revenue, and channels of expenditure will be freely investigated.

It is a well recognized fact that the present governor is a staunch friend of the university, and for this he is to be commended. He is a product of the university, and this is also to his credit. Any man who occupies the position of chief executive, other things being equal, is better equipped if he enjoys a liberal education. But the university is but one of many interests connected with the state, and while important, it is indebted for existence and generous support to the common people of the state.

When the average tax payer comes to the front with his money and goes down in his pocket the second time to meet the demands of increased taxation, he very naturally feels that he is investing in intangible assets, that he knows but little about.

If he has a boy at the university, he visits him occasionally, and notes the equipment of grounds and buildings that represent liberal expenditure, and when he is told that it cost something over a million dollars to support the institution during the past two years, he is a little dazed, but consoles himself with the fact that his boy plays a good game of football, if he don't know much about poker.

If he has no son at the state school, he belongs to the great majority, whose second-hand enthusiasm is supposed to bubble spontaneously, because of pride in one of the best universities in the land.

A Jansville business man, a heavy tax payer, had the curiosity to enquire of the city treasurer, how many tax payers were on the city assessment roll. He was surprised on being informed that there were 2,800. Then he asked the question: "Aside from the few chronic kickers, what percentage of this number feel that taxes are a burden?" The reply was twenty-five per cent. He accounts for this large percentage by the fact that when people get along towards old age, own a little home, and have barely money enough, by careful management, to see them through, that increased taxation is not only burdensome, but unjust, and then he added: "The old fellows are paying too much to educate the kids." This may seem a little blunt, but it expresses strong sentiment that enthusiasts can hardly afford to ignore.

One weakness of the present administration is its one-sidedness. It is university top heavy. This fact was appreciated four years ago when 400 enthusiastic students stampeded the convention with tin horns and brass band, repeated two years later more vigorously because not opposed. The scene was inspiring, but somewhat dramatic. There are 2,000 of these Wisconsin youths, enjoying special privileges because of a generous constituency of 2,000,000 strong. Each of these young men are drawing annually, on the tax payers of the state \$250, for an education, to say nothing about the millions invested in lands and equipment. The draft is honored without serious complaint, but a lack of modest appreciation is somewhat apparent.

Any governor is at his best when in sympathy, and in close touch, with the educational interests of the state, provided always that he is in closer touch with the masses, whose generosity and public spirit, provide the educational equipment.

## THE KEY-NOTE.

The sentiment on taxation, expressed by ex-Governor Scofield, in a recent interview, is attracting at-

tention throughout the state, and is regarded as the key-note of the situation. The old saying that "Any fool can make money, but it takes a wise man to save it," applies with considerable force to the tax methods now in use. It might be safe to add, "get all you can, and spend all you get," for that appears to be the principle. It is always easy to spend public money; in fact, it is easier to spend other people's money, as a rule, than it is to spend private funds. The man on the road, with unlimited expense account, is usually a liberal spender.

Public servants do not always regard a public treasury as a trust fund, and where various interests are clamoring for increased appropriations, demands are frequently met without much knowledge of conditions. The pressure brought to bear on the last legislature, resulted in an increase of about one million dollars for school purposes; the argument used was that the one-mill tax was so small that it would never be noticed.

The men who perpetrated this scheme and whose fertile brain thought out the plan, were not ignorant as to results; in fact, they were men of such "broad intellect" that to accuse them of ignorance, on any question, would be regarded as an insult. It is now argued by these same brilliant financiers that this school fund will not be disturbed. Poor consolation for the men who have put up the money.

Major Scofield is sound on the question of taxation. If corporations are to pay increased taxes, individuals should pay less. If the latter are to contribute more freely, the former should be relieved. It is not a question of more money, but it is a question of equitable distribution.

The ambition of the present administration seems to be, to get out of the people all of the money that can be collected, especially for school purposes. A lofty ambition, and yet there should be a limit.

"He laughs best who laughs last." The fifth ward of Jansville, with 125 republican votes, returns a petition with 100 names for Whitehead, with twenty-five yet to be seen. One precinct in the Third ward reports all but three names. The Town of Center is out from cover, having discovered that the Bennett lay is not an issue, and that the church and state are not in conflict.

There appears to be method in Professor Pearson's madness. It is said that he has written a book that is now ready for publication, and he is today one of the best advertised men in the country.

It is reported that the bank of Monte Carlo has created friction in the ranks of the steel combine officials, that may lead to Mr. Schwab's resignation as president.

J. Pierpont Morgan is authority for the statement that prosperity will continue through the year. Mr. Morgan enjoys the reputation of good foresight.

Mrs. Shaw succeeded in creating a sensation on her advent into Washington society. She will find lively competition in gowns at the national capital.

In captivity yesterday; free today: forecast doubtful for tomorrow. Miss Stone continues to hold the boards with monotonous regularity.

## PRESS COMMENT.

Eau Claire Leader: Senator Spooner has again had occasion to jar the belligerent senator from South Carolina. Mr. Tillman is an extraordinary character. Imagine a man presumed to have mentalty enough to sit in the loftiest legislative body in the world, asking the question "Are the Philippines a part of the United States?" Tillman is too easy for Spooner, who hoisted the fierce and untamed jabberwock on its own pitchfork and dropped him outside the fence.

Gillett Times: Since the opposition to La Follette commenced, the cause of the governor has sustained no greater loss than that of Assemblyman Manuel. When men of such approved standing and worth conclude that La Folletteism menaces the success of the party, it is time that all give consideration to the claims being made.

Racine Journal: There has been nothing secret or in any wise underground about the managers of the new Republican league. They have played entirely fair and indulged in no misrepresentation. Can the believers in a primary ring measure and in a governor forbidding and differences of opinion say as much?

Madison Democrat: The half-breed journals—the word is here used for the purpose of identity—only are scolding furiously because the other side is circulating petitions for Whitehead. As said before, this is repudiation of the primary election principle, which places the petition above the caucus.

Neenah News: Among other things the opponents of Senator Whitehead are telling is that he would, if possible, prohibit the sale of intoxicating liquors, and annihilate the saloon. There are a lot of us who think a higher compliment could not be spoken for the senator who wants to be governor.

Florence Mining News: What the state needs for governor is a safe, conservative man who will neither fly off after populist theories nor seek to turn the functions of gov-

ernment into an adjunct to a political machine gotten up to further his private aims and ambitions.

Milwaukee Journal: The country correspondents who tell so many stories about people who are bitten by mad dogs should distinguish between mad dogs and angry dogs. There is much difference between them—and between their bites.

Milwaukee Sentinel: All is not fair in politics. Pennsylvania republicans were playing it pretty low down on Mr. Bryan when they persecuted those dangerously fascinating schoolmarm to offer to kiss him sixteen to his home.

La Crosse Republican-Leader: Republican sentiment in La Crosse for the nomination of the Hon. John M. Whitehead for governor, may not be unanimous, but it will require four figures to number those who petition the party for that result.

Milwaukee Sentinel: The man who tries to keep even with home and foreign news in an up-to-date Sunday paper, go to church, dine, and take his constitutional, must read on the jump, run all the way to church and back again, eat at snatches, and exercise by proxy.

Marquette Eagle: About the only county that the governor's organs are claiming now is that in which Senator Whitehead's home is situated. As the senator has had a good round majority there for some years their hopes must have colored their view.

We sometimes wonder if the average farmer feels as strongly about oleo as the handful of gentlemen who get national fame by pounding away on the subject.—Madison State Journal.

Oshkosh Northwestern: A Boston scientist declares that people may live to be 150 years old. Of course they "may," but few of them do, and it would be just as reasonable for the Boston man to declare they "may" live for 500 years.

Milwaukee Journal: If the state game warden is no more successful spreading politics than they were in spreading poison in Ashland county, a sudden halt will be in order.

## QUITE A SCRAP.

The Madison Journal is in a panic stricken. At the mere suggestion that Judge N. S. Gilson of Fond du Lac may be the democratic candidate for governor, it comes out with a triple headed editorial urging the stalwarts and half-bred republicans to get together right away quick, lest the party go to the demitition bow-wows. The Journal should calm itself. It should not judge all republicans by those in Dane county, who, under the leadership of Mr. La Follette, killed Gov. Scofield in the campaign of 1898. Happily all men are not governed by a rule or rule policy. There is quite a scrap going on in the party, it is true, but after the nomination is made it is not likely there will be such a wide disaffection as to allow the democrats overcome a majority of 100,000. At least there has been no suggestion of a bolt, under any possible conditions, from those republicans who do not believe that Mr. La Follette is the only man in the state who is capable of holding the office of governor.—Stevens Point Journal.

## NOT A MONARCHY

The plan of ex-governor Hoard for a mass convention that shall declare for renomination of Gov. La Follette and the return of Senator Spooner to the Senate, has no more weight coming from him than it would from the most modest republican anywhere in the state. The suggestion does not come from the right source. If Gov. La Follette himself would declare in favor of Senator Spooner, it means an unbending from his previous imperious manner and a partial understanding that he was willing at last to consider some other people in the party than his immediate intimates. But after trying to ostracise politically all who have not agreed with him in every minute detail, it is hardly possible that the present executive will condescend to come off his lofty perch La Follette would have been at home in an unlimited monarchy, but a republic is hardly suited to his autocratic ideas.—Marquette Eagle.

## MISSED HIS CALLING.

A professor in the Northwestern university has declared his disbelief in some of the miracles of the bible. "If I had the power and ability I would skin that man, salt his hide and hang it on the barn door." That preacher has missed his vocation. Instead of a parson he should have been a butcher at the unclean stock yards. He has also mistaken his theology. Such bloodthirsty vindictiveness does not exist in the mind of the believer in the gospel of charity and toleration.—Madison Democrat.

# MINERS AND OPERATORS MEET

Annual Wage Struggle Commenced at Indianapolis, Yesterday.

Indianapolis, Ind., Jan. 31.—The annual struggle between the operators of bituminous mines in Indiana, Illinois, Ohio, and Pennsylvania, and organized miners began in Tomlinson hall yesterday.

Operators and miners and each state signing the competitive scale were allowed two members on each committee. The committee on credentials will report to-day on miners and operators who are entitled to seats in the convention.

Francis L. Robbins, the head of the Pittsburg delegation, was unwilling to talk about the probable action of the convention. From his manner it is evident that he, with the other Pittsburg operators, is determined to oppose any demand for an advance on the part of the miners.

F. S. Brooks of Columbus, O., secretary of the Ohio Operators' association, does not believe the miners' demand for an increase can be acceded to by the operators.

The delegates from the Indiana coal fields met in the afternoon to name representatives on the joint scale committee.

The Illinois field has nine districts, each of which selected four delegates, who will meet and select the four Illinois representatives on the conference scale committee.

The Indiana operators are opposed to the increase of 10 per cent asked by the miners. W. M. Zeller of Brazil, in the black coal district, said in regard to this subject: "It would be ruinous for the operators to even think of such a thing. There is not an operator in Indiana who has made money during the year just passed."

## CINCH PARTY GIVEN BY UNIQUE CLUB

It Was a New Departure for the Club to Throw Open Its Doors to Ladies.

The cinch party given last evening at the Unique club's rooms on the third floor of the Bostwick block by the members to their lady friends proved a very happy affair. It was a new departure for the club which has seldom thrown open its doors to aught but members and the surprise of their guests at the taste and luxury of the apartments was very great. Everything from the front parlor to the kitchen was as tastefully and as completely as in a well kept home. The six rooms of the suite are furnished most luxuriously, in each one the color scheme being complete in every detail.

The club is still a young organization, but in the short period of its existence has risen to prominence in local social circles.

Card tables were neatly arranged about the room and shortly after the arrival of the guests they were seated at the tables and proceeded to enjoy an evening of cinch. The prizes were awarded to Miss Carson and Mr. Harry Schmidley, first, and Miss Bowen and Maurice Dalton, consolation. At the end of the card games delicious luncheon was served. After which the ladies presented two beautiful pictures handsomely framed as a token of their appreciation of the club's entertainment. All during the evening sweet music was discoursed by the Orpheus Mandolin club.

Mr. Churm made a tour of the Holy Land recently and his observations and power of description makes the lecture very graphic. He enjoys an enviable reputation as a platform speaker, and will be heard from again.

## LABORING MEN MUST ORGANIZE

Appeal by A. W. Holmes to 300 Union Labor Men at Assembly Hall Last Night.

The lecture at Assembly hall last evening by A. W. Holmes of Milwaukee was entertaining and instructive throughout. About three hundred were in attendance and their interest in the speakers was maintained from the first opening sentences until the very end. Mr. Holmes is a fluent and a magnetic talker and his remarks were instructive to unionists and non-unionists alike and he touched up his talk with flashes of humor which kept the interest of the audience in the serious topic he had under discussion ever fresh.

J. C. Osborne, a member of the carpenter's union acted as chairman and opened the meeting with a few remarks which were a pleasant tribute to the speaker of the evening. In his opening remarks Mr. Holmes made a strong appeal for organization by laboring men and stated the many disadvantages that occurred to them as a result of their present organizations.

Referring to the subject of child labor he said that it was the purpose of the union to provide work for the parent at such a wage that it would not be necessary for the child to labor. At the present time, however, there were frequent instances in the large cities of parents who had been employed as machine operators being discharged and the next day the child was employed to do the same work at a less wage.

He said that the unions made no effort to combat the use of machinery, they simply aimed to equalize their benefits so that they would accrue to labor as well as capital.

Union men were accused of being narrow minded and selfish. This was not true. They were just the reverse, being in thought and action than the employer. The true union nature was one of refinement based upon the divine law of love and its purpose to life men up to make the world better and nobler. He closed his remarks with the paring advice to his hearers to purchase and wear only those articles that bore the union label and in this way do their part to advance the cause of labor.

This is Mr. Holmes' first visit in the city and he states that he has been most favorably impressed and will probably speak here again in the near future.

Interesting Analysis of Crystal Lake Ice Made at the Northwestern University.

Prof. J. H. Long of the Northwestern University sends the following report to J. E. Inman of this city on the purity of Crystal Lake ice:

"I have made a complete sanitary examination of the ice from Crystal Lake, from which you take your supply, and find that the ice from Crystal Lake is the best, as it shows a very high degree of purity and is most satisfactory in every way, being entirely free from any injurious matter or pathogenic bacteria and is particularly healthful and desirable for domestic use."

Prof. J. H. Long of Northwestern University is without doubt the greatest authority on the purity of waters that we have in the West.

Mr. Inman, who sells Crystal Lake ice in this city, was seen by a Gazette representative this morning and stated that he looked for business this coming summer was never brighter. People here, he stated, were realizing that pure ice costs no more than the impure river kind that with its germs brings sickness into the home.

### An Arab Is Injured

Mazouma Rahman, one of the troupe of eight Arabs, which form a portion of the cast of the "Lost in the Desert" company, which appeared at the Myra last night was seriously injured while assisting in unloading the troupe's baggage from the drays into the car after this show. Mazouma is one of the strong men of the band and in the play assumes the part of an Arab chief and also is the central figure and the base for the eight high specialty. His injuries were caused by a trunk which weighed over three hundred pounds falling back upon him as they were putting it into the car. A doctor summoned where his wounds were dressed. It will be some weeks before he will assume his accustomed role.

NEIL BURGESS

The announcement that Neil Burgess, America's foremost character comedian would appear himself in that production of international reputation, "The County Fair," has been enthusiastically received by the local theater goers, and his appearance at the Myers Grand on next Wednesday evening will be the scene of a big gathering.

The Howard Dorset company open a five nights' engagement at the Myers Grand Monday evening. This company comes to us highly recommended by the press from the cities where they have appeared, through Illinois, Indiana, Ohio, and the southern states. An entire change of program will be given during this engagement with strong vaudeville work between acts. As an opening bill the company will present Oliver Doud Byron's "The Plunger," when a lady will be admitted free, if accompanied by a person with a paid 30 cent seat, if reserved prior to 7 o'clock Monday evening. The advance sale for the opening night opens on Saturday morning at 9 o'clock.

It will seem good to listen to Ker-

ker's champagne music once again and watch the gorgeous gaiety of Hugh Morton's "Belle of New York" at the Myers Grand, Tuesday, Feb. 11. The management has been complimented on having kept the place up to a high standard. No doubt there will be considerable curiosity to see E. J. Connelly in the role of Ichabod Bronson, president of the Young Men's Rescue League and Anti-Cigarette Society of Cohoes.

"Lost in the Desert," a scenic production with as strong melo-dramatic trend was presented at the Myers Grand last night to a fair sized audience. If the aim of the modern melo-drama is to produce one prolonged thrill from the rise of the curtain to its fall after the last act "Lost in the Desert," the bill at the Grand last night fills all the modern requirements of the melo-drama. "Lost in the Desert," however, has something to commend it beside thrills. The scenic settings of the piece are of a high order and there is a particularly realistic shipwreck in the first act in which is shown a vessel on fire at sea. The cast was not strong but they managed to bring out the points in the play with good effect.

## LEMELY REVIEWS SCHLEY'S APPEAL

Declares That Admiral and His Counsel Have Shifted from Former Position.

BOTH SIDES SHOULD BE HEARD

Says That Question of Command is Overshadowed by Other Incidents—Denies That the Oregon Got Orders from Schley.

Washington, Jan. 31.—The "comment" of Judge Advocate General Lemly and Solicitor Hanna upon the appeal of Admiral Schley to President Roosevelt was made public yesterday. It begins with the statement that Admiral Schley and his counsel have shifted their ground.

The commentators say they recognize that Admiral Schley devoted by far the larger part of his appeal to the question of command, and consequently give that question a proportionate space in their comment. They declare the question is between Sampson and Schley, both alike interested, and to investigate it fairly both should be heard. Such incidental testimony on this point as came before the court was on Schley's side only, and the doors were entirely closed to Sampson.

"To determine an important question of this nature, under such conditions," they add, "is contrary to the underlying principles of Anglo-Saxon justice. Nevertheless it is precisely what the appeal asks the President to do."

As tending to show Schley's own opinion of who was in command, they quote this passage from his dispatch of July 10, 1898, to the Secretary of the Navy:

"Feel some mortification that the newspaper accounts of July 6 have attributed victory of July 4 almost entirely to me. Victory was secured by the force under the command of Commander in Chief North Atlantic station, and to him the honor is due."

The "comment" closes in the following words:

"The contention that the magnificent work of the Oregon, or any part of it, was done under orders from the Brooklyn, or that the Oregon received and obeyed even a single order from Commodore Schley from the time the Spanish ships were sighted to the time of the surrender of the Colon, which surrender may fairly be taken as the close of the battle, must be abandoned, and with it goes the last peg upon which to hang the pretense of a claim that during the battle of Santiago Commodore Schley effectively exercised any of the functions of a commander in chief."

Big Fire at Norfolk, Va.  
Norfolk, Va., Jan. 31.—Fire which started about 2 o'clock this morning in

the C. & O. building on Granby street is estimated as already having caused a loss of \$500,000. In less than fifteen minutes after the fire was discovered the Atlantic hotel and the Virginia club, which adjoin the building, were in flames.

The L. M. B. S. will meet Thursday, the 6 of February, at the home of Urbin Gleason in La Prairie. A full attendance is desired. Pres.

## BLIND-FOLD.

Blindfold a woman and she loses all confidence in herself. Her step is slow, hesitating and uncertain. Her hands are raised to ward the imaginary blows which threaten her. When a sick woman seeks the means of health she is often like a woman blindfold. She has no confidence. She cannot tell what her effort will lead to. She turns now to this side and then to the other in uncertainty and doubt.

The sick woman who uses Dr. Pierce's Favorite Prescription may do so with absolute confidence. It invites open-eyed investigation. There need be no hesitation in following the hundreds of thousands of women who have found a perfect cure for womanly ills in the use of this medicine.

"Favorite Prescription" cures irregularity and dries weakening drains. It heals inflammation and ulceration and cures female weakness.

"With a heart full of gratitude to you for sending out over the land your wonderful medicine I send these few lines, hoping that some poor suffering woman will try Dr. Pierce's medicine," writes Mrs. Cora L. Root, of Greenspring Farm, Washington Co., Maryland. "I had suffered severely from female weakness and had to be in bed a great deal of the time. Had headache, backache, and pain in left side when lying down. I commenced taking Dr. Pierce's Favorite Prescription and had not taken two bottles when I was able to be around again and do my work with but little pain. Can now eat anything and it never hurts me any more. Have taken seven bottles of Dr. Pierce's Favorite Prescription, and one of his Compound Extract of Sarsaparilla, and several vials of his 'Pleasant Pellets.' Feeling better every day. My husband says I look better every day."

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

## DYSPEPSIA

"For six years I was a victim of dyspepsia in its worst form. I could eat nothing but milk toast, and at times my stomach would not retain and digest even that. Last March I began taking CASCARETS, and since then I have steadily improved, until I am as well as I ever was in my life."

## Are You Run Down

Feel all worn out, brain won't work, have no appetite, no ambition, strength or courage—you need Vinol—we guarantee it will help you. Your money back if it don't.

How Vinol made W. F. Searle stronger.

"Your Vinol is certainly a wonderful preparation, one bottle having worked wonders with me. My appetite was gone, nothing tasted good. I decided to try Vinol, and on the second day after beginning to take it I began to relish food again. I have eaten heartily at each meal since, and not only feel stronger, but have made a substantial gain in weight."—W. F. SEARLE, 12 Pierpont Street, Peabody, Mass.

Mrs. S. C. Berry says Vinol is a Great Remedy.

"I was taken with the Grippe one year ago last March, but the cough never left me. I was all run down and did not care for anything or to live. Had two hemorrhages and others slight, but having read what Vinol had done for others I also tried it. I was surprised to notice a change so soon, but it is true. I have taken nearly four bottles and shall get more to take for a while longer. I am not the same person that I was when I began taking Vinol. It surely is a great remedy. It has done so much for me, both for throat and lung trouble, that I wish every one with such trouble would give it a fair trial."—Mrs. S. C. BERRY, High Street, Farm Hill, Middletown, Conn.

Come in and let us tell you about people right here in town who have been restored to health by Vinol. We don't hesitate to guarantee Vinol because we know what it will do.
